THE DEATH RATE INCREASING.

NEARLY FIFTY A DAY FROM FNEUMONIA.

WHAT THE HEALTH RECORDS TELL ABOUT THE INFLUENZA EPIDEMIC.

There was a further increase of mortality in the city last week, and physicians of the Health Department had no hesitation in saying that it was due almost entirely to the epidemic of influenza, which began to attract notice more than a month ago. Deaths from all causes, which were reported at the Bureau of Vital Statistics during the week, numbered 1,183, or thirty-four more than in the previous week. The number of deaths reported to have been caused by inbelieved to have caused many of the 304 deaths ascribed by physicians to pneumonia, or of the sixty-five deaths which were reported as having been due to bronchitis. In no other way, it was said, could pneumonia and brenchitis have claimed so many victims in a single week at this time of the year. Dr. John T. Nagle, the Register of Vital Statistics, said

"The record of pneumonia would be phenomenal were it not for the presence of influenza in the city. Last week the number of reported deaths from nonia was 273 and this week it is 304. The mortality from bronchitis and from cerebra-spinal meningitis is also unusually high. It is, un-doubtedly, true that in many of the reported fatal cases of pneumonia and broughtlis the beginning of the trouble was influenza. When influenza kills, it usually attacks the bronchial organs in such a way as t Produce either paeumonia or brenchitis. The disease also has a marked effect on the nervous system, causing depression and a disarrangement of the organs of the brain. It is likely, therefore, that the increase of mortality from cerebro-spinal meningitis is due to the prevailing epidemic. There were twenty re-ported deaths from cerebro-spinal meningitis this

742 With the exception of diphtheria, contagious diseases increased in the city last week, although they caused fewer deaths than in the previous week. The increase of scarlet fever was particularly noticeable, 211 cases and 20 deaths being reported. It was said that the disease had spread in Morrisania to such an extent as to cause alarm in that district. Residents of the district have complained that the sanitary officials have not taken prompt measures to prevent the spread of the fever. Dr. W. G. Eynon, of No. family of John Stephenson, at No. 664 East One hunored and thirty-fifth-st., on March 30, it was said, and a visit of hese thon was not made to the house by Dr. W. J. O byrne, the district inspector of the Health Lepatineat, until last Thursday. There were nine other families in the house, and children living there were permitted to attend school after the sieghenson child was fill with the fever, it was said, several other cases were mentioned in which Dr. O'Byrne was said to have failed to make prompt inspections after physicians had made reports.

Chief Inspector Dot., of the Bureau of Contagious Discusses, yesterday called on Dr. O'Hyrne to make a report. He said, however, that some of the cases mentioned had not been reported at all by the addresses had not been given. In all cases where reports of contagious discuses were made by physicians, Dr. Doty said, notices were sent immediately to the Board of Educations discusses were made by physicians. The school principals also received duplicate notices from the district inspectors. The following report of contagious discusses in the city during two weeks was given by Dr. Doty: family of John Stephenson, at No. 664 East One hun-

An excited young woman, who said that her name was Sofia Monte, went to the reporters' room in the City Hall yesterday and asked two of the men whom she found there to go with her to the office of she declared she meant to horsewhip a writer on that time she drew a whip which she had concealed in to show that she could make a victim feel decidedly uncomfortable. On the way to the new-paper office she explained that the insult which she had received was contained in an article published in yesterday's "Herold," criticising a performance of hers at a Union Square Theatre matinee on Thursday after-Union Square Theatre natinee on Thursday afternoon. The man she sought, it appeared, was Alexander Neumann, a nephew of the newly appeared
immigration superint-ndent, Dr. Sean-r. Urfortunately for the completion of the episode, Mr. Neumann was not in when Miss Monte reached the office. The manager of the paper told the woman
that Mr. Neumann would be to between 9 and 10
o'clock to morrow morning. If she makes a cell at
that time it is intended to have a police officer there
to take her into custedy.

The article in question speaks lightly of Miss
Monte's appearance as Galarea in the operatic comedy "Lovely Galatea."

CANADA MUST BE INDEPENDENT.

MINISTER MERCIER.

Honore Mercler, ex-Prime Minister of Quebec arrived in this city Thursday, and is staying at the Albemarle Hotel. Last Tuesday he delivered an oration at Montreal, on the occasion of the dedication of a monument to the heroes of Canada, advocating the independence of Canada, at the clo of which the meeting passed resolutions applauding the sentiments expressed and proclaiming Mr. Mercier as the leader of the movement. Speaking of the meeting. its significance and his plans, he said to a Tribune reporter yesterday:

There is no doubt that the great majority of Canadians desire independence from Great Britain Most are not willing to say so in public, but they do say so in private. The outcome of the meeting last Tuesday was as much of a surprise as a grat spontaneous. The committee in charge of the dedica tion invited me to deliver the oration. I accepted, and chose 'National Independence' as my subject. There was an audience of 6,000 present, a fairly representathe spur of the moment and adopted by this way: The United States will not annex Canada by conquest. It must, then, be done by treaty. With With Great Britain. bargain and trade for her. August Jansen declares that he has been illegally restrained of his liberty, as a lunatic, in Ward No. 18 at the Ward's Island Insane Asylum, by the Com-missioners of Charitles and Correction, for over a year. Through his attorney he has secured from Judge Gildersleeve, of the Superior Court, writs of habeas corpus certiorari for the purpose of hav ing his detention inquired into and his discharge granted. He says that he is sane, and that the only granted. He says that he is sane, and that the only reason for his detention in the asylam is the sun position that he had fallen in love with his em-pleyer's daughter. He alleges that he was arrest d without warning, and that he was not clarged with any oritme or offence.

## SHIPMENTS OF GOLD THIS WEEK

The shipments of gold this week promise to reach a considerable sum. It was said at the office of Heidelbach, Ickelheimer & Co. yesterday that the Lazard Freres said that they would ship \$1,000,000. Inquiries made at the offices of the two firms elicited this positive information. At the office would probably ship \$500,000, but it was not absolutely certain. The gold exports by the German The foreign exchange market rules strong and while there is a reluctance on the part of bankers to send gold abroad, the orders from Europe for ship ments of the precious metal are becoming positive The Sub-Trensury vester lay added to its gold balance by the receipt of \$500,000 gold certificates in exchange

PROTESTING IN THE INTEREST OF CANALS. The New-York Board of Trade and Transporation has issued a circular protesting against two bills in the Legislature, either of which, if passed, it is ascerted, will seriously injure the canals of the State. The first MII is an act authorizing the construction of a plie bridge across the Alban) Basin, the first mile of the Eric Canal. The proposed bridge is to be a low structure on piles, and is to be built in the interests of the New-York Central and Hudson River Railroad. The circular asserts that should this bridge be erected the rallroad would ultimately get control of the whole basin, and fill it in so as to secure more land for its own use. The other bill provides for the

MONEY TO EDUCATE FRENCH CHILDREN.

The United French Societies in 1851 decided to stablish an infant school of a non-sectarian char At a more recent date primary classes, conducted from 4 to 0 p. m., so as not to interfere with the work of the public schools, were also established that older children might be taught the language, the history and geography of France. In an appeal issued yesterday attention is directed to the fact that "the French population of this city taxed itself heavily in order o support the schools. The task, however, was made comparatively easy through the subsidies of the French Government and of the city of Paris. But later these subsidies had to be stopped on account of the con dition of French finances. To-day the schools are in No. 2 South Fifth ave., where they were originally established, but ought to be moved, as the French population has followed the upward movement of the American population. This receives extraordinary re-sources, which are not now in the hands of the mana gers."
